Collier Roofing Co., Inc.

Carlisle SynTec, a leading manufacturer of single-ply roofing materials, recently honored Collier Roofing Company, Inc. with its Perfection Award and appointed the company to its inaugural Perfection Council.

"Carlisle SynTec appreciates contractors who share its values and always strive for perfection," said Nick Shears, Carlisle's vice president of sales and marketing. "We believe our premium products deserve top-quality installation, but it is up to our Carlisle approved contractors to exemplify this belief in the field. That's exactly what Collier Roofing Company, Inc. has done."

The Perfection Award is a distinction that recognizes only the top 5% of Carlisle's

contractors annually. Honorees of the award are determined on the basis of a series of quality oriented metrics, including installation quality and warranty claim performance.

The Perfection Council is the highest distinction in its Perfect 10 contractor quality recognition program. Only the top 15 contractors in North America, determined by historical installation quality metrics, were chosen to sit on the council.

Perfection Council members will be welcomed to participate in focus group-style business meetings and will serve on an advisory board throughout the year to determine how Carlisle can best support its contractor network.

Investing in Roofing Solutions for Over 45 Years

Carlisle SynTec

Collier Roofing Co., Inc.

Collier Roofing is a family owned business specializing in commercial and industrial roofing. They approach every job with integrity and professionalism, establishing long term relationships with each and every customer. Boasting a talented staff of professionals whose average tenure is 17 years, Collier Roofing has the capabilities to fulfill the needs of virtually any roofing project. They offer some of the most dynamic services including project specification and preventative maintenance as well as installation, repair and re-roofing. From specifications to completed installations and follow-up inspections, Collier Roofing is focused on one goal – maximizing your roofing investment by offering superior service that extends the life of your roof and lowers its lifecycle costs.

Since becoming a Carlisle applicator, Collier Roofing has completed 388 Perfect 10 roofing installations. Perfect 10 installations, which are presented to Carlisle applicators for outstanding quality and workmanship, are based upon completed roofing system inspections performed by a Carlisle field service representative. Prior to the issuance of a Carlisle membrane system warranty, a project

is thoroughly reviewed for conformity to Carlisle specifications, excellence in workmanship and attention to detail.

As an Authorized Applicator of Carlisle SynTec, Collier Roofing is proud to use only high-quality products that are backed by a proven manufacturer's warranty. In order to be recognized as a Carlisle Authorized Applicator, the experts at Collier Roofing are required to demonstrate their knowledge and experience with a full line of Carlisle roofing systems and products. Each company wishing to be authorized by Carlisle must undergo intensive training conducted by Carlisle, and must demonstrate proficiency in roofing system installations and maintenance. After completing the initial training program, authorized applicators also take part in a continuing education program to ensure they understand the latest technology and procedures from Carlisle.

To find out how you can benefit from the services offered by Collier Roofing Company, Inc visit their website at www.collierroofing.com or call 615-226-2844.
